Description

ACME Dog Whistle

ACME Dog Whistle is a classic double-tone whistle designed for professional and outdoor use. Made of durable plastic, it features two distinct tones one with a ${\tt standardized}$ ${\tt frequency}$ and the other with a ${\tt trill}$ ${\tt sound}$ for consistent tone signaling. The whistle is highly reliable, easy to use, and perfect for dog training, hunting, and outdoor communication.

Aim of the Product

To provide a precise, clear, and consistent signaling tool for hunters, dog trainers, and outdoor professionals. The ACME Dog Whistle ensures dependable performance in all weather conditions thanks to its robust construction and frequency stability.

Audience

- Hunters and field sports professionals
- Dog trainers and handlers

<u>ORDER CONFIRMATION</u>

- Outdoor enthusiasts and campers
- Search and rescue teams

Product Use

This double-tone whistle offers two modes of operation: one side produces a steady, frequency-stable tone for clear communication over distance, while the other side provides a trill tone ideal for variable signaling. The extra-long mouthpiece ensures ease of use and comfort during repeated use, even with gloves in cold conditions. Compact and lightweight, it easily attaches to a lanyard or gear loop for quick access.

Key Features

- Double-tone design: one steady frequency tone and one trill tone
- Stable frequency: reliable sound transmission in all conditions
- Durable plastic construction: resistant to impact and weather
- Long mouthpiece: easy to grip and use, even with gloves
- Compact and lightweight: ideal for everyday carry and outdoor use
- Bright orange color: easy to locate in the field
