Description

ACME Dog Whistle

ACME Dog Whistle is a **classic double-tone whistle** designed for professional and outdoor use. Made of durable plastic, it features two distinct tones - one with a **standardized frequency** and the other with a **trill sound** for consistent tone signaling. The whistle is highly reliable, easy to use, and perfect for **dog training, hunting, and outdoor communication**.

Aim of the Product

To provide a **precise, clear, and consistent signaling tool** for hunters, dog trainers, and outdoor professionals. The ACME Dog Whistle ensures dependable performance in all weather conditions thanks to its robust construction and frequency stability.

Audience

- Hunters and field sports professionals
- Dog trainers and handlers

Product Use

This **double-tone whistle** offers two modes of operation: one side produces a **steady, frequency-stable tone** for clear communication over distance, while the other side provides a **trill tone** ideal for variable signaling. The **extra-long mouthpiece** ensures ease of use and comfort during repeated use, even with gloves in cold conditions. Compact and lightweight, it easily attaches to a lanyard or gear loop for quick access.

Key Features

- **Double-tone design:** one steady frequency tone and one trill tone
- **Stable frequency:** reliable sound transmission in all conditions
- **Durable plastic construction:** resistant to impact and weather
- **Long mouthpiece:** easy to grip and use, even with gloves
- **Compact and lightweight:** ideal for everyday carry and outdoor use
- **Bright orange color:** easy to locate in the field

Specifications
