Description

Products specifically recommended for the care of all AKU shoes and boots: the shoe care spray has a special formula to improve water and oil resistance of suede, leathers and fabrics.

This product, all based on natural compounds, is easy to apply and it does not alter the qualities of leathers and fabrics.

Instructions of use:

Spray uniformly on dry and clean footwear from distance of about 15 cm and leave to dry normally.

To obtain better protection it is preferable to apply two light coats allowing to drying timebetween each application.

Periodically reapply the product.

Before use, we suggest carrying out a pre-test on a less visible areaof the footwear to check the final result after drying.

Made in Italy.
