Description

AKU Flyrock GTX Fast Hiking Shoes - GORE-TEX®

Protection & Vibram® Traction

Fast, light, and built for performance. The **AKU Flyrock GTX** is engineered for dynamic outdoor activity and off-road adventure, where **traction, protection, and high cushioning** are essential. Combining **advanced materials** with AKU's signature ergonomic design, the Flyrock GTX delivers exceptional comfort and efficiency for hikers who move fast and cover ground with precision.

Performance-Driven Design

The **Vibram® Flight Traction Lug outsole with Megagrip compound** offers reliable grip and stability on varied terrain – wet or dry. The **High Cushion & High Rebound EVA midsole** enhances shock absorption and energy return, ensuring comfort over long distances. The **Dynamic Fit System** automatically adapts heel tension to match your natural stride, maximizing stability and minimizing fatigue. Meanwhile, **AKU's Elica Natural Stride System** promotes biodynamic efficiency, aligning the foot and leg for smoother transitions and balanced weight distribution.

Weather Protection & Comfort

The **GORE-TEX® Extended Comfort membrane** provides complete waterproofing and breathability for all-weather performance. The lightweight textile upper reinforced with **welded PU film** protects against abrasion while keeping the shoe agile. Inside, a **partially recycled Ortholite® Hybrid footbed** ensures
