Description

Designed for hard and intensive use during the cold winter time, suggested temperature range -25°C + 10°C 30% rH to 99% rH and rain with proper socks and gaiters, especially in Mountain Operation, it is lined with Gore-Tex Insulated. Extremely stable when carrying heavy loads on backpack. Antistatic Heat and POL (Petroli Oil Lubrificant) resistant Outsole. Also suitable for hunting and forest works.

Details:

- Anatomical fit - comfortable and enveloping anatomical shapes for footwear in the Trekking segment, designed to offer comfort and stability and to promote dynamic action when walking on mountain trails with uneven ground.
- ELICA Technology ensures an anatomical fit to provide better stability and weight distribution across your boot sole to reduce pressure points and encourage better hiking form.
- UPPER: PERWANGER SUEDE 2,6 MM
- UPPER PROTECTION: RUBBER
- LINING DESCRIPTION: GORE-TEX® INSULATED COMFORT - Offers a range of insulation options to keep feet dry and comfortable in cold to very cold temperatures. Designed for the winter, they keep feet warm and dry all day long, even in rain, snow and ice. Key advantages:
