Care and Maintenance

Clean the ear plugs regularly using the included Alpine cleaner or mild soap and water. Allow them to dry completely before storing. Proper cleaning extends the lifespan and ensures optimal performance.

Regulations and Standards

- Tested according to EN 352-2 standard
- CE certified
- ANSI certified

Safety Information

- Do not insert too deeply into the ear
- Consult a doctor if you have ear conditions or infections
- Keep out of reach of small children
- Use only for intended purpose (travel and noise reduction)

Other Useful Information

The FlyFit ear plugs are developed based on over 20 years of Alpine experience in hearing protection. The AlpineAcousticFilters™ technology works like a valve, allowing controlled pressure equalization while maintaining awareness of surrounding sounds.

The product has received the prestigious Red Dot Design Award for its innovative design and high quality, confirming its position as a premium travel accessory.

The AlpineThermoShape™ material adapts to the ear using body heat, ensuring a secure fit without uncomfortable pressure.

Glossary of Terms

- **AlpineAcousticFilters™**: Special filters that regulate air pressure while reducing noise.
- **ATS (AlpineThermoShape™)**: Thermoplastic material that adapts to ear shape for better fit.
- **SNR**: Single Number Rating indicating overall noise reduction.

FAQ

Do the earplugs prevent ear pain during takeoff and landing, significantly reducing ear discomfort.

Yes, they will help you remain audible. They may be used up to approximately 100 times with proper care and cleaning.

Yes, they are used outside of flight, in car and bus travel where light noise reduction is beneficial.
