Description

With a charge capacity of 10000 mAh and an output power of up to 2.400 mA (at 5V DC), the compact powerpack is able to charge mobile devices several times. The high-quality external battery pack with sturdy housing is compatible with all standard USB devices such as smartphones, tablets, mobile phones, MP3 players, navigation units and many other devices that can be charged via USB.

Multi-Safe technology

The media constantly carries warnings about cheap products that start to burn or even explode without warning. You're on the safe side with ANSMANN. The integrated over-charging protection ensures that the Powerbank stops the charge process automatically once charging has been successfully completed. The deep discharge protection switches the Powerbank off as soon as the voltage of the Powerbank drops below a defined value when charging the connected device, thus preventing damage to both the rechargeable battery and the product. The short-circuit protection completes the safety functions and ensures maximum safety along with the automatic shut-off.

LED capacity display

The charge status indication can be activated with the push of a button enabling the current capacity to be reliably displayed in 25% steps via

four integrated LEDs.

Technical Data

Color	black
Size	92 x 63 x 23 mm
Cell Chemistry	Lithium polymer
Voltage	3.7 V
Nominal Capacity	10000
Packaging	cardboard box
Charging Cycles	500
Ports	2× USB
Output Voltage	5V DC
Input Voltage	5V DC
Maximum output current	2400
Energy content	37

Brand country - Germany.
