Description

Conduction of body heat, convective airflow and evaporation of sweat combine to greatly reduce surface temperatures between the skin and body armor carrier. This unrivaled performance ensures optimal comfort and maximizes the operational effectiveness for military, law enforcement and corrections personnel.

Conduction: Reduces body armor surface temperatures up to 17.5 degrees.

Convective Airflow: Rapidly evaporates sweat to keep your skin and t-shirt drier.

Evaporative Cooling: Drops body armor surface temperatures to as low as 71.4 degrees.

Size Medium

Includes: (2) 25.4 x 30.48 cm (10" x 12") panels, fits Plate Carrier Sizes: L, XL

ARMORVENT Retrofit Kit includes: (2) ARMORVENT panels, (1) Hook and Bulb Kit

* Hook and Bulb Kit includes: (1) inflation bulb and 100" peel and stick hook tape. This is enough hook tape to apply to two vest carriers. If you are applying ARMORVENT to additional vest carriers, then we advise purchasing an additional Hook and Bulb Kit.

Note: We use a specially formulated rubber adhesive on the hook tape. Other commercially available hook tapes with adhesive WILL NOT provide adequate
