Description

CR123A lithium batteries are rather powerful and can be as well used as an economic variant to energize high-performance flashlights. CR123 batteries can also become a perfect reserve power source in case you don't have an ability to recharge your 18650 batteries. Armytek CR123A batteries are ideal for LED flashlights, photo equipment, cameras, optics and other high current digital devices

- PCT protection for safety
- 10 years - ultra long shelf life with low discharge
- Voltage 3.0V
- Capacity 1600 mAh.

Brand country - Canada.
