COMPACT MICRO USB MULTI
FLASHLIGHT WITH LAMP MODE
(WHITE LIGHT)

Description

Elf C1 is a compact and lightweight multi flashlight with basic set of modes and Micro USB charger.

Optimal weight, impressive brightness and simple operation. The flashlight allows a more comfortable outdoor recreation for runners, mountaineers, cave explorers and fishers.

Impressive 1000 lumens in a body weighing only 56 grams. Elf C1 is a great main or additional light source for any daily activity. You can take the flashlight with you for an evening walk, when hunting, fishing or hiking. It doesn't occupy much space, easily fits in a bag, and won't require recharging throughout 2 months of minimum brightness. The flashlight also works in lamp mode – from a USB power source, no battery inside. Micro USB socket eliminates the need to carry the charger around: any Micro USB cable is suitable for charging. Powerful built-in magnet, removable clip and headmount provide multiple attachment options and additional hole in the tailcap makes Elf C1 a full-fledged 5 in 1 multi flashlight.

The flashlight's body is compatible with bicycle mount ABM-01 and universal hard hat mount AHM-02

ELF C1 – MULTI FLASHLIGHT 5 IN 1

HEADLAMP

- Simple one-hand operation, reliable headmount
- Solid body without long wires, weak rubber connectors and unnecessary boxes

ORDER CONFIRMATION

- The flashlight is easily installed, removed and 180° rotatable in the mount

EVERY DAY CARRY LIGHT

- Compact design
- Convenient side button
- Special matt anti-abrasive finish without rough knurling
- Strong built-in magnet and removable robust steel clip

BICYCLE LIGHT

- Body made from durable and lightweight aircraft-grade aluminium
- Improved shock resistance, new springs for more efficient flashlight performance and better battery and driver protection
- Constant light without flickering
- Optional quick-release mount
- Not intended for use on public roads

KEYCHAIN LIGHT

- Compact and lightweight for even more comfortable carry in a pocket
- Hole for keyring or lanyard in the tailcap

LAMP MODE

- Works without batteries directly from a Powerbank or any USB adapter

SAME ELF C1 IS NOW EVEN BETTER

New optical system and TIR-lense: better light output with comfortable wide spill.

Maximum LED efficiency: we achieved 1000 lumens instead of 900 lumens in Elf C1 v1.

New head design: improved heat dissipation and brighter light with more lumens.

Enlarged side button: softer and more comfortable pressing.

Innovated electronics and firmware: extended runtimes and enhanced brightness.

Improved springs: new springs for better protection of the battery and driver and increased performance efficiency.

More durable Micro USB socket cover: new design, thanks to which the plug is convenient to use and can't be torn.

Optimized tailcap design: reduced length of the flashlight, magnet is now securely fixed inside, additional hole for keyring or lanyard.

Stylish body: matte anodizing, laconic style, new corporate branding.

Extended set: Micro USB cable included.

ADVANTAGES OF ELF SERIES FLASHLIGHTS

- Multicolor temperature, battery level, charging process and state indication with the ability to turn off the latter.
