Excellent light with constant brightness thanks to powerful electronics and active temperature control without timers.

Rechargeable with magnetic USB cable.

Efficient TIR optics with no "tunnel vision" effect even after prolonged use.

Colored low battery warning indication and active temperature control.

Side button for convenient one-hand operation and easy mode switching with advanced controls.

Colored information indication and ultra low current consumption in the off state - more than 25 years.

Magnet, sturdy case, detachable clip and vertical mount for versatile use. Robust housing without long wires, unreliable rubber connectors and extra blocks.

Full protection against penetration of water, dirt and dust - the flashlight continues to work even at a depth of 10 meters.

Power supply: 1x18350 Li-Ion

- Luminous flux power 1050 lm
- Batteries 18350
- Housing material Metal
- Weight 58 g
