Description

See objects, animals, or persons in the dark, determine how far away they are, take (and stream) video, and even send ballistic info to your compatible riflescope with the BinoX-4K 4-16x65 Night Vision Binocular with Laser Rangefinder. This versatile optic shows day and night imagery on an internal 1280 x 720 display, with a built-in infrared illuminator enabling its 3864 x 2218 sensor in the darkest environments. Its built-in laser rangefinder measures distance from 5 to 1000 yards with 1-yard accuracy, and the BinoX-4K can send range information via Bluetooth to a compatible ATN SMART HD riflescope to determine point of impact with no need for a holdover.

Functions and Features:

- THERMAL DETECTION RANGE:
 - Detection - 750
 - Recognition - 335
 - Identification - 205
- ULTRA SENSITIVE NEXT GEN SENSOR - black hot, color mode, white hot.
- VIDEO RECORD - record and Share your moments with a press of a

button. Video files stored on an internal micro SD card.

- LASER RANGEFINDER 1000 Y/M - integrated Laser Rangefinder, so you now have the ultimate binocular package that has everything you want. Not only do you have the ability to see both day and night at your fingertips, but you now have the ability to range your target with absolute accuracy for dope hold over or know how far you need to trek to your next waypoint.
 - Distance to target day or night.
 - Built-In Laser Rangefinder.
 - IR illuminator.
- ATN RADAR: THE SOCIAL WAY TO HUNT – Game can be tagged with an ATN capable laser device and the target's location will automatically be displayed on a map overlay in your phone and your ATN connected device. Individuals using ATN Smart devices will see a mini radar in their field of view providing the relative direction and range to the tagged target. Turn Hunting into a real Team Sport. Quickly know where your group is at all times. Mark your prey and go for the trophy.
- BALLISTIC INFORMATION EXCHANGE – BIX (Ballistic Information Exchange) tech allows ATNs SMART HD devices to communicate and exchange information. BIX is a culmination of years of research and development. This technology lets our systems talk to each other, exchanging valuable information; in order to facilitate a shooting solution eliminating hold over. Simple to pair, our BIX Tech is independent of any app so you don't need to rely on extra equipment. Or if you don't have an ATN SMART HD scope BIX provides the same capabilities with traditional glass scopes with the aid of our Laser Ballistics app.
- DUAL STREAM VIDEO – Obsidian IV Dual Core T not only Streams Video at HD resolution but can simultaneously Record to the SD card inside.
- BUILT-IN IR ILLUMINATOR – For those times when you have friends or team members with Night Vision that need help looking at the right spot to see the target.
- ULTRA LOW POWER CONSUMPTION – The new internal lithium Ion battery will keep you hunting late into the evening or those early morning hours, with an incredible 16+ hrs of run time. Saving you money on buying multiple reusable or one-time use batteries.
- INTERPUPILLARY ADJUSTMENT – Just like your standard binoculars, ATN's binoculars are designed with a comfortable eye relief and interpupillary adjustment so anyone can use these digital binoculars with comfort.
- INCLUDED ACCESSORIES:
 - Soft carrying case;
