The Crusader 90+20 is the top size in our MMPS (Multi Mission Pack System). Designed as a modular system the Crusader Side pockets integrate with the Berghaus Centurio 45 and Centurio 30 sacs to offer a flexible pack system to support different mission requirements.

1-4 Weeks

Description

If you have a serious adventure in mind you will need a serious rucksack - the Crusader 90+20 MMPS Rucksack is as tough, durable and versatile as they come. This 90 +20 litre rucksack is constructed from tough textured nylon, reinforced to give maximum durability and extreme abrasion resistance. Whatever your challenge versatility and flexibility is offered through our Multi Mission Pack System (MMPS) range - this family of packs integrate to deliver a highly flexible system.

Features:

- This pack is rigid but light - it has a HE30TF aluminium alloy frame
- Plenty of space to take everything you need for the journey with a 100 Litre capacity, complete with top tension straps and side and base compression straps to make packing easy
- Versatile for shorter trips too, just remove the detachable Multi Mission Side Pockets (MMPS) and zip them together to make a handy daysack
- Take adverse weather in your stride - fix a walking pole or ice axe to the attachment point for easy accessibility
- Carry your canteen or any other accessory on one of the six attachment points

The body length is an indication for the size of a rucsac with Cyclops II back system. Cyclops II is applied on Atlas, Crusader, Spartan and Vulcan packs. The back length differs from person to person. In case of doubt it is recommended to fit the rucsac, preferably with weight inside, to determine the right size.

Lifetime guarantee.
