Description

Due to the special ceramic additive and a wide temperature range (-50 °C to +150 °C) GunCer gun grease protects treated parts from wear and corrosion. It is ideal for lubricating pairs of sliding elements such as guiderails, rollers, detents, locking lugs or hinge pins. It is also suitable as a fitting lubricant. It is neutral to plastics, paints, wood and bluing. This white and odorless grease does not contain any resins, acids, silicones or PTFE. The ceramic additives ensure reliable emergency lubrication at any time. Clings very well to surfaces and does not resinify.

- Highest corrosion protection for treated components
- Reduces friction and wears
- Outstanding sliding properties
- For lubrication of all tribological pairings, such as breech guiderails, rollers, detents, locking lugs, hinge bolts and as a
