Description

The Ballistol Plastic Cleaner was specially developed for powerful cleaning of plastic parts on weapons. All plastic weapon parts of long guns and handguns as well as weapon cases and bags can be quickly and effectively cleaned with the Ballistol Plastic Cleaner. The plastic cleaner removes even stubborn dirt, grease, soot, sweat and smoke as well as adhesive residues thoroughly.

Very good cleaning results even on light plastics. Also suitable for carbon surfaces and aluminum as well as anodized aluminum. On leather the plastic cleaner behaves neutrally. The plastic cleaner is gentle on materials and does not attack surfaces. Not suitable for unpainted wood surfaces.

The special mini pump sprayer can be locked so that it can not be mistakenly sprayed.

The Ballistol Plastic Cleaner is tested and recommended by Steyr Arms.
