ORDER CONFIRMATION

- **H226:** Flammable liquid and vapour.
- **H319:** Causes serious eye irritation.

Precautionary Statements

- **P101:** If medical advice is needed, have product container or label at hand.
- **P102:** Keep out of reach of children.
- **P210:** Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- **P305 + P351 + P338:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
- **P501:** Dispose of contents/container in accordance with local/national/international regulations.

FAQ

How long does BallistolrStichfreiTropical protect against mosquitoes?
humidity, sweating, and activity level.

Does it also protect against ticks and horseflies? in addition to mosquitoes.

Is it safe for children? Children aged 2 years and older. Application should be done by an adult, avoiding eyes, mouth, and hands.

Can I use it on anything? skin and clothing. This is useful because mosquitoes can bite through thin fabrics.

What is the difference between Icaridin and DEET? Icaridin is more effective and generally better skin tolerance than DEET. It is also less likely to affect plastics and typically has a milder odor.

Can I use it together with, sunscreen? Apply sunscreen first, then apply the insect repellent on top.

Glossary

- **Icaridin:** Modern insect repellent active ingredient designed to reduce insect landings and bites
- **Citrepel® (PMD):** Repellent based on p-Menthane-3,8-diol, often used to enhance protection in high insect pressure environments
- **DEET:** Classic insect repellent active ingredient used since the 1940s; effective but may be less skin- and material-friendly
- **CLP/GHS:** EU/UN system for classification and labeling of chemical hazards
