### Description

The compact and lightweight 2-fold solar panel offers a self-sufficient charging option for battery-powered devices with a USB connection such as smartphones, tablets and power banks. The high-quality and efficient monocrystalline silicon cells achieve a high level of efficiency and deliver constant current in good sunlight. The compact and lightweight design makes handling and transport extremely easy. Unfold and align the panel as perpendicularly as possible to the sun. Equipped with carabiner and loops for attachment to e.g. backpack, tent or other breakpoints. The flat design made of durable Oxford nylon fabric is extremely robust, dust- and water-repellent. The inside pocket also allows you to store flat and small items.

- self-sufficient charging option
- high-quality and efficient silicon cells
- compact pack size
- attachment loops and carabiners
- robust, dust- and water-repellent
- with inside pocket

## ORDER CONFIRMATION

---

- Weight 335 g
- 600D Oxford nylon fabric water repellent
- closed size: 270 x 160 x 20 mm
- open Size: 465 x 265 x 5 mm
- output USB 1 and USB 2: max. 5 V / 2,4 A
- the 2 solar panel does not have an integrated charger / battery or charge controller
- not suitable for direct charging of individual battery cells.
- only suitable for devices with an internal charger, e.g. smartphones, tablets and power banks
- charging time depends on device battery. With e.g. conventional smartphone with approx. 5000mAh - 7000mAh battery, the charging time is approx. 2-3 hours. at 70000 lux (light conditions = full rays of sunshine approx. 100000 lux - cloudy approx. 10000 lux)
- set contains: 1x solar panel, 2x carabiner, 1x micro USB cable, 1x user manual

Brand country - Germany.
