Description

Delightfully tactical - the Kirke enchants the work!

Alessandra De Santis from Hydra Design enchants knife enthusiasts from all over the world with the irresistible charm of the Boker Plus Kirke, which was inspired by the eponymous goddess of sorcery from Greek mythology. Despite its bewitching magic, the Italian knife designer remains true to her tactical line and keeps the pocket-knife in a muted black color. The ball-bearing Nitro-V harncliffe blade with a austere black stonewash finish can be operated by either using the flipper or the generous thumb opening, while the button lock ensures intuitive unlocking of the knife. Pronounced finger recesses, fine texturing on the G10 handle scales and a thumb recess on the back of the blade guarantee a secure grip at all times and a high level of work safety, even under the most adverse conditions. Colorful accents are highlighted by the cover of the rear pivot screw and the back-spacer made of G10, whose seductive blue almost mesmerizes the eye.

The Tactical Folder gets into close contact with the reversible pocket clip (tipup), which allows for discreet deep carrying.

- Overall length: 20,1 cm
- Blade length: 8,6 cm
- Weight: 100 g
