Description

Innovative, suitable for everyday use, Voxnaes. This is the successful formula of Danish knife designer Jesper Voxnaes, which also applies to the Boker Plus Little Friend. The compact everyday companion cannot hide its similarity to the successful Boker Plus F3.5 models and comes with a satin-finished and ball-bearing drop-point blade made of powder metallurgy CPM-S-35VN as well as wine-red handle scales made of G10. To open the pocket knife, there is a choice of flippers or the tear-shaped thumb hole, while the linerlock reliably locks the blade in place. Visual highlights are the star-shaped blade axle screw with a brass ring, the brass backspacer and the discreet ricasso on the back of the blade. The deep-carry clip (tip-up/r) and the lanyard hole round off the EDC character of the folding knife. Supplied with a high-quality nylon pouch for storage.
