Description

The international orientation of our Boker Plus brand has been exceedingly well received in recent years. Based on initially different production facilities in Asia, we most recently successfully established the Boker Plus Italy brand. Now we are taking the step across the Atlantic by presenting Boker Plus USA together with the first folders made in the USA under the Boker Plus brand. We were able to retain Austrian designer Raimund Lhotak for the the Boker Plus Patriot, who had already successfully worked with us on several other projects. The design specification was for a lightweight yet durable everyday carry knife with the best possible mix of versatility and practicality, while being exclusively based on premium materials. As a result, we selected the American-made 154CM as the blade steel, which has been a fixture in the steel tables for many years with its outstanding edge-holding characteristics. The black handle is made from fiberglass-reinforced plastic, which boasts a maximum of strength at a minimum of weight, while its textured surface also offers a solid grip even with wet or cold hands. The slightly tapered handle line and deep finger grooves ensure ideal ergonomics, while the reversible clip (l/r) together with the ambidextrous backlock provides unrestricted left-handed operation. The slim handle is assembled with screws and features a generously sized lanyard hole. The blade has a satin finish and a smooth edge.

Designer:	Raimund Lhotak
Total Length:	19,0
Blade Length:	8,5
Blade Thickness:	2,9
Weight:	60,0 g
Blade Material:	154CM
