Description

Thomas Krug, whose main job has been running the New Hope Tattoo parlor for many years, also uses his considerable drawing talent to design impressive knives, such as the Prime. And since Thomas is a practitioner, he also included a kydex sheath that comes equipped with an angle guided diamond sharpening stone. Anyone who is uncertain about the sharpening angle simply places the sheath on an uneven surface using the beveled opening, and thus obtains a sharpening angle of about 20° to the vertical. The Prime is a beefy outdoor and utility knife that pretty much handles any job with its almost 7 mm thick blade. The grip wrapping with paracord ensures a solid grip and permits convenient custom coloring and knot designs to one's own liking. 440C blade steel with glass bead-blasted surface.

Type:	Fixed Blade
Designer:	Thomas Krug
Total Length:	19,6
Blade Length:	9,5
Blade Thickness:	6,8
Weight:	246,0 g
Blade Material:	440C (57-58 HRC)
Handle Material:	Paracord
Lock:	Fixed
Color:	Green
Blade Color:	Uncoated

Thomas Krug

The ambitious Knife Maker Thomas Krug from Bochum operates a renowned tattoo studio and specializes exclusively in individual pieces, called custom tattoos. The extremely talented engineer designs not only fine Kitchen Knives but also suitable Outdoor Knives.

Böker Plus

In close cooperation with international acknowledged experts from military, police and security we develop and test tactical knives for the professional user. Boker Plus knives are innovative in terms of function and design, as well as guaranteed for everyday use. Conception, design and construction are carried out in Solingen, and production takes place in Europe, the USA and Asia.
