Description

BROS repellent mats for electric device against mosquitoes II.

Repellent mats impregnated with an active substance for use in electric fumigators designed to combat mosquitoes and protect indoors from insects that come in from outside. One plate protects approx. 30 m³ space for about 10 hours. Optimal protection is provided approximately 30 minutes after activation.

Instructions for use: Insert the plate in the intended place. The plate changes color during use.

Safety measures: Wash hands after use. Open the windows before using the electric fumigator or thoroughly ventilate the treated room after using it. Do not cover the device, do not allow contact with flammable materials. Do not touch the switched on electric fumigator with metal objects or wet hands. Do not use in rooms where food is stored, or in rooms where there is a child under 1 year of age, pregnant women, sick people and allergic persons. When the device is in operation, it must not touch other objects
