This is the core of the tent - spacious, comfortable, ultralight, safe. The perfect mobile bedroom, so you can camp wherever and whenever you like. When the weather is good you can, lying comfortably, enjoy unlimited views and full protection from insects. When it's cold or raining, you can cover the LODGER with a tarp, turning it into an ultra-light tent in just a few moments.

1-4 Weeks

Description

The first fully tarp-compatible, 2-person tunnel mesh tent. The uniqueness of the CORE-Tent® LODGER lies in both its simplicity and the unlimited freedom to customize the product. With a long waterproof storage space, there is more than enough room for very tall people. You can use it simply as a mesh tent or cover the LODGER with a tarp and turn it into an ultralight tent in a few moments.

Space

The CORE-TENT® LODGER is half a meter longer than other ultra-lightweight tents, allowing you to spread out your gear so it doesn't interfere with sleeping comfortably. Tall people especially appreciate this solution - no more snagging your head on the tent walls, no more feet sticking out of the tent.

The tent paired with a 2x3 tarp provides additionally a side luggage space with convenient access through the side entrance of over 1 sq. m. When using a 3x3 tarp, the vestibule provides another 2 sqm under the roof. It

is not only a space for luggage, it is also a comfortable living space during rain or heat.

Comfort

Front and side entrances offer a wealth of choices depending on individual needs and situations. You can go classic by using only the front entrance, while leaving the side ones as access to the tarp-covered "luggage" area. You can also raise the half tarp, lean on trekking poles, paddles, bicycles or simply branches and enrich your bedroom with a roof covered patio. It's not only a comfortable wide exit but also an opportunity for evening campfire contemplation?.

The CORE-Tent® LODGER is designed to create large, lockable ventilation ducts when covered with a tarp. Thanks to them and the two-layer construction (mosquito + trap-tropic) moisture does not condense and at the same time allows to regulate the temperature inside.

This unique solution provides comfortable camping conditions regardless of the weather. CORE-Tent® LODGER is a real must-have for cyclists, kayakers and all those travelers who appreciate lightweight, compact equipment offering many configuration possibilities.
