Sales price 81,95 €

Salesprice with discount

Incl. VAT 21%: 14,22 €

Dimensions

220 × 130 cm

Weight

1.1 kg

Insulation

200 g/m² polyester

Thermal Comfort

Approx. -5 °C

Construction

Double-sided (green / scarlet)

Features

Integrated suspension system,
adjustable tensioners, hood pocket

Packed Size

Approx. 40 × 20 × 20 cm

Package Contents

- Bushmen EASY Underquilt
- Compression storage bag

FAQ

What is an underquilt used for? With a hammock to provide insulation from cold air. It prevents heat loss that occurs when sleeping bags become compressed under body weight.

Can the EASY Underquilt be used without a hammock? Yes, it can be used as an emergency sleeping bag or an additional insulation layer for sleeping systems.

Is synthetic insulation suitable for wet conditions? Yes, it is. Synthetic insulation is suitable for wet conditions. It does not lose its insulating properties when it gets damp and dries faster than down insulation.

How is the underquilt attached to the hammock? The underquilt is attached to the hammock using adjustable tensioners that connect to the hammock suspension. Adjustable drawstrings help shape the quilt to the hammock.

Glossary

- **Underquilt:** An insulating layer suspended under a hammock to prevent heat loss caused by compressed insulation.
- **Top quilt:** A lightweight sleeping cover used instead of a traditional sleeping bag.
- **Synthetic insulation:** Polyester insulation that retains warmth even when wet and dries quickly.

GPSR Safety Information

Use the product only for its intended outdoor applications. Keep away from open flames and strong heat sources. Inspect the suspension system and fabric before use to ensure safe operation.
