Description

Prusik PRO - a smart and versatile pair of loops made from elastic cord, featuring a convenient hook at the end. Safely and effortlessly tension your tarp on the ridgeline, secure or attach gear to your backpack, or even to a bike frame. Sold in pairs.

Despite its small size, the possibilities are vast!

The knot you can tie on the ridgeline allows the loop to slide in one direction while securely locking when pulled in the opposite direction is standard.

The innovative hook at the end of Prusik PRO is not only a stylish detail but, above all, provides support during tarp setup.

Without unnecessary accessories or complicated knots, Prusik PRO makes it easy for quick and hassle-free tarp attachment. The elastic cord protects it from unpredictable gusts of wind, ensuring the stability and reliability you need.

Prusik PRO also offers easy setup and safeguards your tarp from overloads. Additionally, you can use it for quickly securing your gear to your backpack, bag, bike frame, or the seat of your canoe.

Prusik PRO - not just a tool, but the key to a comfortable and safe adventure!
