Description

The set allows you to smoothly adjust the tension level of the hammock, which makes it a comfortable hammock unfolding system that does not require the knowledge of knots. Short loops are attached to the ends of the hammocks, and the long adjustment loops are usually attached to the carabiners of the straps that are wrapped around the trees. Variable length loops allow you to perfectly level the hammock and give it the desired shape. They are equipped with orange beads to prevent the loops from slipping out accidentally. The free ends are equipped with hooks that can be used to suspend luggage.

Characteristics:

- The set allows you to perfectly level the hammock
