## Description

The Boker Plus Belt Clip is a slim alternative to the Blade-Tech Tek-Lok, whereby the drill holes of the large Clip are absolutely compatible with those of the large Tek-Lok. The Belt Clip is screwed to the sheath and then slid over a belt with a maximum width of 70 millimetres. The significantly flatter design compared to the classic Tek-Lok is particularly noticeable when the knife is worn for a longer period on the belt. Supplied with screws.
