Description

The elegant Boker Plus Zenshin is reminiscent of the world-famous Higonokami pocket knives, which have been manufactured in the Japanese city of Miki since 1896. Unlike its historical predecessors, the handle body of the gentleman's knife is not made from a single piece of folded metal, but from flat stainless steel handle scales with a matt stonewash finish. The flat construction dispenses with additional liners and lies comfortably in the hand. The 440C has an elaborate two-tone finish and a flat grind. It is opened by a blade spur and securely locked by a frame lock. With lanyard hole. Unfortunately, there was a printing error with this article in the current catalogue, the dimensions shown here are valid. We apologize for the misprint in the catalog and thank you for your understanding.

- Overall Length: 17,00 cm
- Blade Length: 7,50 cm
- Blade Thickness: 2,40 mm
- Weight: 60,00 g
- Blade Material: 440C
- Handle Material: Stainless Steel
