## Description

The Camillus Carbide Edge 7.75" Titanium Carbide Folding Knife with GFN insert handle features one of the strongest edges in the industry. The leading edge of the knife has been laser fused with Carbide to form superior abrasion resistance while also affording countless more cuts between sharpening sessions. This proprietary process is done by micro-welding a bead of carbide on the edge of the blade, then carefully sharpening it through multiple grits until perfection. One of the most rugged knife profiles out there, the Camillus Carbide Edge was made for those seeking the highest balance between cutting strength and laser-like precision.

## Features:

- Blade Treatment: Titanium Carbide Edge
- Overall Length: 7.75"
- Main Blade Material: 420 Stainless steel
- Blade Type: Drop Point
- Blade Length: 3.25"
- Blade Color: Silver
- Blade Edge: Smooth
- Blade Grind: Hollow
- Pocket Clip
- Handle Color: Black/ Silver
- Handle Material: Aluminum Handle w/GFN Insert
- Hand Orientation: Left and Right
