Description

The TD-050, 3D Series 10x50mm High Definition Waterproof Binocular is a part of our 3D Series Binocular line and feature dielectric prism coatings that ensure the brightest, sharpest images possible. Dielectric prism coatings greatly improve light transmission, brightness and provide clear, high contrast images that show accurate color reproduction.

The TD-050, 3D Series Binoculars are ideal for hunting or birding. Rubberized armor coating makes these full-sized 3D Series Binoculars rugged and shock proof. The body is nitrogen purged and O-ring sealed making them waterproof and fogproof. Extra long eye relief with twist down eyecups make these full-sized 3D Series Binoculars perfect for eyeglass wearers. The precisely placed thumb grooves, "just right" texturing and all-over lightweight body ergonomics make the 3D Series Binoculars perfect for long hunts or bird watching expeditions. The TD-050 are also perfect for outdoor activities or sporting events.

* Warning - The case for this device contains magnets which can interfere with pacemakers and implantable cardioverter defibrillators (ICD's). Individuals with pacemakers or ICD's should NOT use this product.

Model Name	3D Series™
Model Number	TD-050
Magnification	10x
