Description

The Carson MM-840 eFlex™ is a powerful digital microscope that displays the magnified image right on your computer screen. The impressive 75x/300x effective magnification (on 21" monitor) allows you to see details of ordinary objects that you never knew existed!

Capture an image to keep with the click of a button. You can even capture close-focus video! The included flexible neck stand with suction cup adapter attached to any smooth surface, or included graduated base with ease.

Max Picture Resolution: 1600 x 1200

Max Video Resolution: 640 x 480

To determine the power, multiply your computer screen size by 3.57-14.29. Example: 32" computer screen would magnify 114-457x (power). Please note, the effective magnification is a combination of the optical system and a high powered digital zoom.

Latest version is compatible with Windows 10/8/8.1/7/Vista/XP SP2+ and all Mac OS. A USB 2.0/3.0 port is required. No batteries required.

* DOES NOT WORK WITH TABLETS *

Carson Optics

Carson Optical was founded in 1990 by Richard Cameron. With over 29 years experience in the optics industry, Carson has dedicated a team of engineers whose sole mission is to improve the customer experience. The company's product line has grown exponentially to encompass a broader range of products and accessories that reflect the needs of its client base. Carson's commitment to excellence is the foundation of the company. As the number one manufacturer of US magnifiers and one of the leading suppliers of binoculars, Carson's entire product line consistently boasts first-rate quality at affordable price points.
