Waterproof Binoculars – the perfect companion for any outdoor adventure! Whether you're hiking, camping, birdwatching, or simply enjoying the great outdoors, these binoculars will help you see everything in stunning clarity and detail.

One of the standout features of these binoculars is their high definition optics. The HD optics provide a bright, clear, and crisp image, making it easy to see details even at long distances. The HD optics provide exceptional color accuracy and contrast, while the anti-reflective coating helps reduce glare and improve visibility even in low light conditions. Additionally, the powerful 12x magnification allows for a closer look at wildlife, landscapes, and other outdoor features, while the 50mm objective lens provides a wide field of view, making it easier to track moving objects.

The VX-250 binoculars possesses fully multi-coated lenses to minimize light reflection as well as fully multi-coated dielectric BAK-4 prisms to provide high quality images. Phase correcting coatings are applied to these prisms to ensure accurate color balance and fidelity while also producing more color and detail in backlit or silhouetted objects of focus.

Another great feature of the Carson VX Series binoculars is the anti-fog technology. The nitrogen purged body helps prevent the lenses from fogging up, even in humid or damp conditions. This is important for outdoor enthusiasts who may encounter a variety of weather conditions. This feature also helps to protect the binoculars from damage, preventing dust and debris from entering the optics. Paired with a rubberized armor textured coating to provide a secure grip and help protect against damage from bumps and falls, these waterproof binoculars are designed to be durable and long-lasting.

Binocular accessories are included in purchase to increase portability and ease of use. Accessories included with the VX-250 are a binocular case, case strap, binocular neck strap, protective lens cap, and microfiber cleaning cloth. And with a weight under 2 pounds, they won't weigh you down on long hikes or treks.

The Carson VX Series 12x50mm HD Full Size Anti Fog and Waterproof Binoculars are a great choice for outdoor enthusiasts who are looking for a durable, high-quality pair of binoculars. With their HD optics, anti-fog technology, and waterproof design, these binoculars are sure to provide a clear and sharp image.
