Description

Casio G-SHOCK watch is one of the original G-SHOCK series watches.

Technical Specifications - CASIO GBA-900-1AER

Bluetooth® Smart

Smartphone time

The watch is equipped with energysaving Bluetooth® technology, which offers power-saving data transfer at the push of a button. The watch can connect to a smartphone wirelessly via Bluetooth®, enabling access to a wide range of useful functions. Local time will automatically be

adjusted whenever the watch is connected with a smartphone.

If the ambient light fades, a turn of Super-Auto LED Light

> your wrist illuminates the watch display particularly brightly and in

coulor.

Shock-resistant Shock-resistant construction protects

against impact and vibration. Steptracker The watch has a built-in 3-axis

> accelerometer that counts the steps you take and indicates the numbers on

the display.

Lifelog Function Based on the number of steps, the

> watch calculates a calculatory calorie consumption and the distance

covered.

A second location time can be set and Second time zone

called up. Ideal if you frequently

make overseas calls.

hours

Stopwatch function - 1/100 sec. - 24 Elapsed time, split time and final time are measured with 1/100-sec

accuracy. The watch can measure times

of up to 24 hours.

Lap memory 50 Measured total, lap and split times

> can be stored in a memory with the date and can be displayed again later. A data set consists of: date, total, lap and split times. The

> memory has enough space for up to 50

data sets.

5 Timer - 1/1 Sec. - 60 Min. (with

automatic repeat)

Phone Finder

The count-down timer gives a signal

by reaching the set time. The measuring capacity reaches up to 60 minutes. The timer can count back automatically again from the preset

time. Five of these countdown alarms

can be set independently.

5 daily alarms The daily alarm reminds you about

> recurring events with an acoustic signal at the time you have set. This model has 5 independent alarms for flexible reminders of important

appointments.

Button tones on/off The button tones for using the mode

> button can be turned off. This means that the watch no longer beeps when switching from one function to another. Preset alarm or countdown timers remain active when the button

tones are deactivated.

Hand Moving Function With a push of a button, hands are

> moving and permit a free visibility of functions like stopwatch or date. Misplaced your smartphone? All it takes is the push of a button on your

watch and the smartphone sounds an

alarm.

Incoming calls display When you receive a call on your
