## Description

The Chef'sChoice 1520 AngleSelect professional electric knife sharpener is the ideal solution for both 15 and 20-degree class knives. Using 100 percent diamonds, the hardest natural substance on earth, our patented abrasives sharpen edges faster and easier. This sharpener improves cutting performance by creating 2 distinct facets set at different angles that form a sharp, longer lasting, arch-shaped edge. The first stage sharpens 15-degree straight edge knives, while the second stage sharpens 20-degree straight edge knives. In the final stage, patented stropping disks create an unparalleled polished finish to both 15-degree & 20-degree knives. Precision angle guides ensure accurate sharpening throughout the entire blade length and eliminate any guesswork. This unit is designed to work with both straight-edge and serrated knives.

### Features

- Precision angle guides ensure accurate sharpening from bolster to tip and eliminate any guesswork
- Eastern style knives (15 degree angle) sharpen with Stage One and then hone and polish in Stage Three. Traditional western style knives (20 degree angle) sharpen with Stage
- Two, and then hone and polish in Stage Three.
- Utilizing diamonds, the hardest natural substance on Earth, our
