ORDER CONFIRMATION

Measure the circumference of your **dominant hand** just around the knuckles (excluding the thumb). The measurement you get is your glove size – for example, if you measure **9 inches / 23 cm**, you'll need a **Medium** glove.

Note: If the gloves feel too tight, they may reduce circulation and make your hands feel cold. When in doubt, choose a size up for comfort.

Glossary

- **Aquasealz®:** Proprietary waterproof membrane technology that combines complete water resistance with breathability for optimal hand comfort.
- **Coolmax®:** Technical fabric designed to wick moisture away from the skin, keeping hands cool and dry.
- **Sheepskin Leather:** Soft yet durable natural material providing excellent grip and long-lasting wear resistance.
