Description

Some products have a kind of cult following. For each manufacturer, facing a crowd of satisfied clients is not only an enormous joy but also confirmation that the product is right.

Following up the popularity of the Urban Tactical Pants®, we have released their new version - Urban Tactical Flex Pants®. Even though the main construction of the pants is the same as in the UTP, there are some major changes. The most important change is the fabric - we now use nonelastic NyCo fabric, one of the most durable clothing fabrics available. To maintain freedom of movement, we have added VersaStretch® elastic panels in the crotch and back neck area. The cut and pocket layout retain a civilian look to keep anonymity, while providing full functionality for tactical use. The elastic hook-and-loop-closed belt allows easy adjustment, and wide belt loops accommodate belts as wide as 50 mm, including all Helikon-Tex® tactical belts: EDC, UTL, or Cobras.

Key Features

- Elastic waistband with Velcro fastener
- 50 mm wide belt loops
- Two key loops, D-ring or karabiner compatible
- Classic jeans-style 'neck' shape prevents riding down
- Two internal low-profile pockets
- Two classic front pockets with reinforced edges for gear clips
- Two wide back pockets
- Two slim back pockets depth-adjustable
- Two thigh cargo pockets with YKK® reverse
