# Description

For those intrigued by the *Bush Ranger* but seeking a budget-friendly folding field knife, Mike Wallace developed the *Bush Ranger Lite*.

With an almost identical 3.5 in. (approx. 9 cm) Sheffield clip point blade, the Lite version of the Bush Ranger utilizes durable 8Cr13MoV steel and a thumb stud for ease of opening. As comfort in use is key, the Bush Ranger Lite's handle is comprised of expertly contoured glass-filled nylon (GFN) that fits your hand like a glove. With ambidextrous carry options offered through an interchangeable pocket clip, and weighing just 4.8 oz. (approx. 140 g), the Bush Ranger Lite makes carrying a breeze. As always, safety and security continue to remain priority number one to Cold Steel, so the Bush Ranger Lite was supplied with a state-of-the-art rocker lock featuring a secondary safety that, when engaged, is enormously resistant to shock and impact.

We're confident you'll agree, the Bush Ranger Lite is an excellent first folding knife or budget-friendly, reliable utility knife for everyday carry (EDC).
