Description

The Cold Steel Pro Lite was developed with one clear aim: To offer a folding knife with all of the strength and durability that fans and customers have come to expect from Cold Steel products, but at an even more affordable price!

Designed by celebrated custom knife maker Andrew Demko, the Pro Lite features a 4116 stainless steel blade (in either Clip Point or Tanto Point configuration) that will take a very sharp edge, while still being incredibly easy to re-sharpen in the field. It also features a tough matte-black polymer handle with integrated lanyard hole and reversible ambidextrous pocket clip for left or right handed users.

Equipped with Cold Steel's groundbreaking Tri-Ad locking mechanism for added safety and strength, the Pro Lite has withstood all of the grueling and torturous quality control tests that Cold Steel is famous for! If you are looking for a tough, high performance folding knife that won't break the bank - your search is over!

This folder is available for purchase with two different blade styles:

- Pro Lite Clip Point (Product No. 20NSC, shown here)
- Pro Lite Tanto Point (Product No. 20NST)

German 4116 Stainless Steel

ORDER CONFIRMATION

4116 is a fine-grained stainless steel from Germany often used in the pharmaceutical Industry and in high-end kitchen cutlery. Its carbon and chromium content is balanced for excellent corrosion resistance and strength. Capable of taking a very fine, sharp edge, it makes an excellent choice for outdoor hunting applications.

Cold Steel's 4116 stainless steel is sub-zero cryo-quenched for markedly increased strength, hardness and durability and superior edge-holding potential.

Details:

- Pro Lite CLIP POINT
- Blade material: German 4116 stainless steel with stone wash finish
- Overall length: approx. 20.3 cm
- Blade length: approx. 8.9 cm
- Blade thickness: approx. 3 mm
- Handle: approx. 11.4 cm long, fiberglass-reinforced nylon
- With ambidextrous pocket/belt clip (stainless steel)
- Weight: approx. 91 g
- Cold Steel Product No.: 20NSC
