Voyager Clip Point Large,
Folder with AUS 10A stainless
steel blade 2018 Model

1-4 Weeks

Description

The Cold Steel Voyager® series is designed to be the true *everyman* knife. Lightweight, comfortable, super-sharp, they are rugged, dependable and perfect for hunting and camping as well as general utility and daily cutting chores. They excel in many survival and rescue applications, and they have proven to be very popular with police and military personnel who appreciate the combination of cutting performance and safety that they offer.

They are precision-engineered and held to Cold Steel's most exacting standards. The 2018 series Voyagers feature Japanese AUS 10A alloy blades and Cold Steel's Tri-Ad® locking mechanism, which is quite possibly the most secure, safe and shock-resistant lock on the market today!

The ergonomic Griv-Ex™ handles (reinforced with heat-treated 6061 aluminum liners) provide great comfort and a secure grip even under extended use in tough conditions.

The Voyager is available in several sizes and with various blade and edge configurations, so there's a Voyager for everyone!

2018 Model - The Voyager Clip Point Large with AUS 10A steel blade replaces the discontinued CTS® BD1 steel version (Product No. CST-29TLCC).

Japanese AUS 10A Stainless Steel

Japanese AUS 10A steel could be referred to as the big brother of AUS 8A, the latter of which Cold Steel has been using for over three decades. AUS 10A is a high-performance stainless alloy steel boasting all the properties of AUS 8A and then some! It's an excellent steel for working knives - tough, corrosion-resistant, easy to re-sharpen - and is known for better edge retention than AUS 8A, due to its higher carbon content.

Details:

- Voyager Clip Point, large, plain edge - 2018 Model
- Blade material: Japanese AUS 10A stainless steel
- Overall length: approx. 23.5 cm
- Blade length: approx. 10.2 cm
