Description

Hunting socks Comodo SMP2 designed for protection against ticks and insects in the spring and summer.

Made of 70% cotton, which is pleasant to the touch, durable and absorbs moisture well.

Coating The ANTI-TICK is completely natural, non-toxic and therefore safe also for people with sensitive skin.

Specially designed zones increase the comfort of use. They protect against the formation of abrasions and chafing, stabilize the sock on the foot and prevent its removal.

Comodo SMP2 gives comfort and protection that will be appreciated by people who like forest trips on warm days.

Main advantages:

- 70 cotton
- natural anti-tick coating
- pleasant to the touch material
- smoothed seams
- good fit to the foot
- thin construction

Special zones increasing wearing comfort:
