## Description

Joe Flowers collaborated with custom makers on a multi-use fixed blade knife in 2009, suitable for bushcrafters, hunters, adventurers, and all woodsmen. The Terrasaur Knife was the result. Now, Condor will be making the first production version of the knife, in a compact value-based package. The goal of the Condor Terrasaur is to make an affordable super bushcraft knife that can be used by anyone, from the beginner all the way to the expert woodsman. With an indestructible polymer handle and ambidextrous sheath, backed by Condor's lifetime warranty, the Terrasaur has arrived.
