Description

Why toss aside a shape that has been tried and tested for millennia, thought Elmer Roush when he designed the Freyr Axe. Among other things, he gave his tool the typical long edge of Viking axes. The head is forged from 1055 carbon steel and receives a surface treatment. The Tennessee hickory used for the handle is the top tier of handle woods. A robust hatchet combining sturdiness and versatility.

Type:	Axe / Tomahawk
Designer:	Elmar Roush
Total Length:	40,6
Blade Length:	11,5
Blade Thickness:	30,1
Weight:	814,0 g
Blade Material:	1055
Handle Material:	Hickory Wood

CRKT

Columbia River Knife and Tool was founded in 1994 in Oregon and cooperated early with well-known knife makers from all around the world. Innovation and technological development are the most important aspects for CRKT. A large number of patents have already been submitted, such as frame locks, new opening assistants and a new blade grinds. Today CRKT is to one of the most famous and important knife brands in the world.
