ORDER CONFIRMATION

Beyond medical devices, CVN Medical Solutions also provides certified **TCCC** and **TECC** training programs. The company operates under strict quality standards including **ISO 9001, ISO 14001, ISO 13485 and AQAP**, supporting high reliability and regulatory compliance.

FAQ

What is the CVN4 bandage used for? Applying direct pressure to wounds in emergency situations.

Is the bandage sterile? Sterile and has a shelf life of up to 10 years from the manufacturing date.

Can it be used in first aid kits? Yes, it is used in first aid kits, including tactical and professional emergency kits.

Does the bandage stick to the wound? No, it is designed to prevent sticking and allows safe removal.

Glossary

- **Compression bandage:** A bandage designed to apply pressure to control bleeding.
- **Non-adherent pad:** A wound dressing that does not stick to the wound surface.
- **CE marking:** Certification indicating compliance with European medical device regulations.
- **TCCC / TECC:** Tactical medical care guidelines for emergency and prehospital treatment.

Safety Information

Use only for intended medical purposes. Improper use may result in ineffective treatment or injury. Training in first aid or trauma care is recommended.
