### Description

This backpack, built in 600 Denier polyester, satisfies both tactical and "outdoor" needs.

All zips are YKK and water resistant. The padding inserted on the back, belt and straps, have been studied to guarantee maximum comfort and breathability.

The padded belt is detachable and is provided with two zip pockets to contain material with reduced volume (keys, documents, etc ...).

The backpack has a main central opening that opens vertically. This type of opening has been designed to quickly take the material that is on the bottom of the backpack.

It has another superior opening protected by a water resistant flap. Inside there are three detachable pockets for the containment of personal belongings.

The pockets have been built with one side in micro mesh, so the content is visible and can be recovered faster.

On both sides two compartments of equal size have been built, protected by the waterresistant YKK zip.

Features :

- 35 liters
- Water repellent fabric
- Water repellent YKK zippers
- 100% Polyester 600 Denier
- Weight: 1.50 Kg
