### Description

#### DEFCON 5 INFRARED BLOOD TYPE PATCH

The **DEFCON 5 Infrared Blood Type Patch** is designed for quick and clear identification of blood types in both daylight and low-light environments. With infrared reflective properties, it ensures enhanced visibility when using night vision equipment. This patch features a Velcro back, making it easy to attach to any Velcro panel on tactical gear.

#### Key Features:

- **Infrared Reflective:** Provides excellent visibility in low-light conditions, especially during night operations.
- **Velcro Back:** Easily attaches to any Velcro panel on vests, jackets, or other tactical gear.
- **Durable Design:** Made to withstand demanding environments and prolonged use.
