Description

On the modern battlefield, the ballistic protection is just a must-have item no less important than camouflage. Therefore we've decided to create an advanced helmet cover for one of the most popular models on the market - the OpsCore® FAST helmet. Made of Cordura® fabric, proprietary laminate, and elastic softshell fabric, this cover will fit not only the ballistic helmets but also the bump version, without interfering with its ventilation holes. The loop panels on top and back are also MOLLE/PALS compatible so that you are able to mount any cameras, IR strobes, counterweight, etc. Side loop panels will allow for easy personalization with IR flags/IR markers. The front cut is made especially for NVG mounts. Size of the cover depends of the size of helmet.

Raw Material	100% Nylon
Weight [g]	74 g
SKU	HC-FAST-CD5
Country of Manufacture	Poland
