Description

Our MOSQUITO modular belt system is an extremely versatile platform - just like de Havilland's 'Wooden Wonder' from WWII. It works well in both low-profile and heavy-load configurations. It is compatible with accessory hip and drop leg panels.

Specs:

- Made of proprietary laminate, stiffened, Velcro loop lined
- Designed to work as a belt sleeve for MUSTANG rescue / gun belt, will fit most standard rescue belts
- Laser cut PALS slots interchanging with vertical openings on the sides allow for user-preferred equipment attachment options for holster, blade etc.
- Additional stability can be achieved by using the MOSQUITO modular belt sleeve together with the MUSTANG inner belt
- Low profile Y-style suspenders for use under armor available
- Detachable stiffened hip panels available in two lengths, long panel allows direct mounting of Safariland's® 3-hole system pistol holsters
- High ride drop leg panels available

* Please note that inner belt, hip panels and suspenders are sold separately.

Raw Material

Cordura®

Weight [lb]

Size S : 0.48 lb; Size M: 0.55 lb;
