About the Brand

Diamond Machining Technology (DMT) is a pioneer and global leader in diamond sharpening technology. Established in the USA, DMT products are known for **precision, durability, and consistency** across professional, culinary, and industrial applications. Their **monocrystalline diamond surface** provides faster sharpening and longer tool life compared to conventional stones. Trusted by craftsmen, chefs, and professionals worldwide, DMT continues to set the standard in modern sharpening innovation.

Glossary of Terms

- **Monocrystalline Diamond:** A single-crystal diamond abrasive offering uniform grit size and exceptional durability.
- **Grit:** Measurement of abrasive coarseness; lower grit removes material faster, higher grit polishes edges.
- **NRR:** Noise Reduction Rating; not applicable to this product but standard for DMT labeling of technical performance.
