## Description

For bench stone applications when versatility is important, but storage is limited, choose DMT®'s 6" Double Sided Dia-Sharp® continuous diamond sharpening bench stone. Two grit options in one stone. For knives, blades and fine tools. Size: 6" x 2" x 1/4". Diamond grit clearly marked on each side of stone. Choose from the following grit combinations: coarse/extra-coarse, fine/coarse, extra-fine/fine or fine/extra-coarse.

### Grit Descriptions:

- Extra-Coarse diamond (60 micron / 220 mesh) when significant removal of material is needed for damaged edges.
- Coarse diamond (45 micron / 325 mesh) to quickly restore a neglected edge.
- Fine diamond (25 micron / 600 mesh) for a razor sharp edge.
- Extra-Fine diamond (9 micron / 1200 mesh) to polish and refine a razor edge after sharpening with a coarser diamond stone.

Sharpening with diamonds is fast and easy. No messy oils needed—sharpen dry or with water. Durable construction will provide years of consistent
