Tested and certified ballistic safety glasses from Edge Tactical with 3-fold anti-scratch coated polycarbonate lenses.

Description

Hamel TT safety glasses from Edge Tactical Safety Eyewear, with ballistic tested, triple anti-scratch polycarbonate lenses. The Hamel TT lenses are tested to EN166 F CE, ANSI Z87.1 + 2015 and MCEPS (Military Combat Eye Protection Systems) GL-PD 10-12. The lenses filter 99.9% of UVA/UVB/UVC radiation. The wrap-around frame with rubberized temple tips fits comfortably and tightly on the head and is made of indestructible TR-90 nylon polyamide, EN166 S CE tested. The temples of the Sharp Edge TT (Thin Temple) are extra thin and are very suitable for wearing under hearing protection or helmet

Polarized Smoke Lenses:

Because light can be extremely harsh and blinding to the eye, Polarized lenses have a special filtering layer that blocks reflected light from below and glare from above. With only direct light coming in, the Polarized lens allows the ability to see without excessive glare. It is the perfect all-around tint for normal lighting conditions. They have a light transmission of 14% and filter 99.9% UVA/UVB/UVC rays.

Microfiber cleaning pouch included.

Weight: approx. 34 g.

Brand country - U.S.
